

LET'S GO DEEPER

Talking with My Father
October 11, 2020 | Pastor Eric

We are a culture that is more connected than ever. We have more information and access to more voices and opinions than ever. In a time where productivity and profit are king, it seems more difficult than ever to spend time with the King.

1. Our culture today is filled with “likes” and “follows.” We have open forums for opinions and spaces to air our grievances. How has the drive for social acceptance and approval affected the pursuit of time with our Father?
2. Read Psalm 42. What does the writer say about his circumstances? What can we learn from his example of spending time with God in the midst of the most difficult of circumstances?
3. Read John 17:20-23. One of Jesus’ most passionate prayers caught on record. What does this prayer show us about who God is and what wants for us when we spend time with him?
4. What is keeping YOU from deeper times with your Father? What do you need to do to change?

FAMILY CHAT

Maybe now more than ever the coming generations are forming habits that are distracting at best and destructive at worse. Talk around the table about *your bad habits* and their affect on your life. Share some of your *good habits* and how you have been impacted by them.

Spend some time planning how your family can build healthy habits with the Father and how you are willing to be held accountable.
